

ECOPERLA VITA

YOUR PROBLEM

Hard water causes formation of persistent limescale, which is difficult to remove. As a result, laundry feels rough to the touch, it doesn't smell nice and cosmetics don't bring desired effects. Other negative effects are dry skin and brittle, frizzy hair. How can you deal with the problem?

OUR SOLUTION

The Ecoperla Vita cabinet water softeners are a perfect solution to hard water problems and the lack of space for installation. Thanks to their modern, practical design, they take up really little space, while their components allow for efficient reduction of even high hardness levels.

GENERAL INFORMATION

Ecoperla Vita is a line of water softeners recommended for households whose owners are looking for appliances of good quality at an affordable price. Ecoperla Vita is a water softener which does not generate high maintenance costs and is very convenient to operate. This combination of innovative and proven solutions creates a product that will last for many years.

Depth	50 cm	50 cm
Salt consumption per regeneration	1,5 kg	3,0 kg
Water consumption per regeneration	85 l	130 l
Max. recommended operating flow	2,0 m ³ /h	3,0 m ³ /h
Connection	1"	1"
Temperature (min/max)	2/48 °C	2/48 °C
Pressure (min/max)	2/6 bar	2/6 bar

SOFT WATER IN EVERY HOUSEHOLD

DESIGN

- Modern casing designed in line with current trends and users' preferences, made of durable plastic, highly resistant to mechanical damage
- Shape and dimensions of the casing suitable for installation in small spaces, also in recesses, fitted kitchens, narrow rooms
- Maximum salt level indicator in the tank enables appropriate dosage of regeneration agents
- Easy access to the brine tank and smooth process of salt adding thanks to properly profiled casing
- Protective control head cover preventing from contamination ingress
- Mixer for adjusting the final degree of water hardness

WHAT'S INSIDE?

- High-class monosphere ion exchange resin
- Control head from Clack, renowned American manufacturer
- Regeneration with counter-current flow
- Our device is equipped with safety features such as a safety float and overflow pipe bend
- The innovative Ecoperla Perfect System settings
